ENERGY EFFICIENCY GRANTS

IN PARTNERSHIP
WITH

COMMUNITY INVESTMENT
COLLABORATIVE

In 2023, Community Climate Collaborative (C3) will award Energy Efficiency Grants to **small, minority-owned businesses** to be used for completing energy efficiency upgrades.

Our goal is to help these businesses realize emissions reductions and financial savings through capital investment, **up to \$2,500 each!**

ELIGIBILITY CRITERIA

- Have a business license in the City of Charlottesville or County of Albemarle.
- Qualify as both a small business and a minority-owned business as defined by Virginia SBSB criteria. Preference will be given to certified businesses; equivalence will be acceptable.
- Proposed upgrade must demonstrate energy savings and/or emissions reduction. **C3 can help you quantify this!**
